

A Society for Environmental Education Through Actions.

Aims & Objectives :-

The aim of the Eco-Club is creating environmental awareness amongst the future generations. Eco-club of Pranathan College (A) Kherolha is a multidimensional, highly active Society.

We know that we are an integral part of the Environment and the solution to many environmental problems lie in our attitude towards environment. The best way to bring about a change in this attitude in society is through students.

The Eco-Club has therefore play an important role for creating environmental awareness amongst the future generation.

The Eco-Club has to create passion and zeal for keeping environment clean & to develop the qualities of leadership, self reliance & team work among the students.

Students work under this Eco-club which has its own motives for introducing to the student

→ Encouraging students to keep environment clean.

→ Sensitize the students to minimize the use of polluting products

→ To motivate students to work in an environment friendly manner which includes use of LPG, Paper bag, Gas pipe line and to save electricity.

→ To make students understand the importance of environment and its problem areas.

→ To involve students in action based programmes related to various problems prevailing in their surroundings.

This club has a great vision ahead as it is an "ENVIRONMENT SAVIOUR CLUB" and its prime focus is on how to keep the environment free from pollution & green environment where we can breathe freely.
